SEEGRID

Seegrid Learning

Seegrid Learning encompasses a wide variety of training programs and materials designed to help you maximize and maintain a powerful fleet of Seegrid Palion™ autonomous mobile robots (AMRs) and Fleet Central software.

Empower Your Team for Accelerated Automation Success

Our dedicated team of learning professionals have designed training plans that are intuitive and tailored to your needs. Whether you manage your Palion AMR fleet or work alongside them, Seegrid Learning offers introductory courses and materials for beginners as well as advanced training plans for expert users, providing your team with the knowledge to successfully operate, maintain, and maximize the value of your Palion AMR fleet and enterprise software solutions.

Introducing Seegrid Learning

Unlimited Access to Full-Spectrum Learning

Gain 24x7 access to our robust online training portal, our user-friendly centralized library that contains Seegrid Learning courses, materials, and resources to help your company benefit quickly from the use of your Seegrid mobile automation solution.

Seegrid Learning is designed to assist users across all levels of expertise, with training in multiple formats to best fit a range of needs.

As a Seegrid customer, your team has access to:

- On-demand video tutorials that provide instructional information on using Seegrid Palion AMRs and Fleet Central enterprise software

- Self-guided learning modules, allowing users to learn at their own pace and on their schedule to expand their knowledge on different topics

- Virtual classes led by a Seegrid instructor through live video conferencing

- In-person training at Seegrid's Customer Experience Center or on-site at your facility

> **Newly gained competencies translate to more capabilities—and a competitive advantage for your team.**

Fast-Track Results with Seegrid Learning

DRIVE ADOPTION

Provide users with information specific to their roles, goals, and applications to increase their confidence in working with the technologies. Developing a confident, knowledgeable team will quickly drive adoption—and results.

DEVELOP AUTOMATION EXPERTS

Users will become material handling automation experts by increasing their skill level and expanding their knowledge to safely operate and maintain their AMR fleet. New opportunities for growth are established for continuous improvement.

MAXIMIZE EFFICIENCIES

Seegrid Learning courses and materials deliver the insights you need to increase production effectiveness while reducing costs. With users confidently and regularly utilizing the AMR fleet, you will achieve a faster return on investment.

About Seegrid

Seegrid combines autonomous mobile robots, enterprise software, and best-in-class services for a complete, connected material handling automation solution. With millions of autonomous production miles driven, Seegrid Palion AMRs are reliable, flexible, and proven.

The world's largest manufacturing, warehousing, and logistics companies rely on Seegrid to automate material flow in highly complex environments. From project design through deployment, change management, user training, and data-driven consultation, material flow is both safe and optimized, accelerating automation initiatives today and into the future.
